To Whom it May Concern

My company was until recently, engaged as part of an international Joint Venture, commissioned to work on a major gas project in Doha. Over the course of this project, substantial changes to work scope and sequencing of activities caused the Joint Venture to suffer sizeable losses.

Despite our best endeavours, the Client was not receptive to any form of discussion over the cause of these problems nor would he recognise any reimbursement of the Joint Venture's losses. The Joint Venture decided to employ a UK Claims Consultant to assist in compiling a Claim aimed at addressing these losses. However, we soon became dissatisfied with the performance of this Consultant and by chance, we were referred to Quantum International.

After several meetings, we engaged Quantum to undertake the Claims compilation and risk mitigation exercises together with providing assistance in relation to day-to-day commercial management work.

I am delighted to say that Quantum performed their duties to an outstanding level of competency. From their analysis of the problems, the strategizing of solutions to the implementation and delivery of the Claims documentation, their performance has been genuinely outstanding. Moreover, Quantum integrated perfectly with the existing Joint Venture team and we found their input in relation to Commercial Management matters to be invaluable. As a result of their efforts on both quantum and time related matters, the Claim has been settled amicably and without recourse to the formal remedy of Arbitration.

Speaking on behalf of the Joint venture, I have found Quantum to be an excellent company to work with – their staff are highly professional, objective and industrious and the overall level of professional competency is unmatched by any Consultant we have so far used. Subsequent to the settlement of this major Claim, we have since engaged Quantum on a new project and their task on this occasion, is to assist us in working to avoid the similar problems that we have previously encountered.

Having enjoyed working with the Quantum team, I would have absolutely no hesitation in recommending Quantum to any Client contemplating undertaking an important Claim issue.

Yours sincerely,

For on behalf of Al Jaber & Partners

Sobhi Sabek
Project Manager
