**TO WHOM IT MAY CONCERN**

This is to record that CCC used the services of Quantum Middle East (QME) to present its case for the delays at Nile Corniche Project to the high committee representing the Client and his consultants.

The material prepared by QME was well received by the audiences and helped CCC to conclude a fair settlement for its ongoing claims.

We appreciate the efforts and professionalism of QME and we will not hesitate to recommend them for future support to other CCC projects and or other clients.

Regards,

**Bassam Daher**
