Summary

Gordon Tregaskis, Non-Executive Director provides global support on legal, contractual and commercial matters to Quantum's clients. Gordon initially worked as barrister in London, and is an accomplished and pragmatic commercial director of major international projects. He has a legal background with significant international dispute resolution experience gained in problem solving roles managing major infrastructure projects worldwide. Gordon has successfully managed and resolved major engineering and construction, energy, intellectual property and shipping disputes through a considered mix of negotiation, arbitration and mediation.

Gordon's specific areas of expertise are arbitration, adjudication and mediation, evaluative mediation, early neutral evaluation and mini trial, commercial direction of major infrastructure projects, claims preparation, analysis and presentation, litigation and case management, commercial management of construction projects, leadership of litigation support teams and project financing. Gordon has delivered commercial and contractual solutions within more than nine jurisdictions and is familiar with both facilitative and evaluative mediation processes and specialises in disputes requiring an understanding and appreciation of cross-cultural influences in the international resolution of conflict. Some of the projects where Gordon has led teams providing successful dispute management solutions to an international client base include:

Geographic experience

- Middle East
- North Africa
- Southeast Asia
- China
- United Kingdom
- Europe
- USA
- South and Central America
- Australia
