Summary

Associate Director, Martin McClenn is a widely experienced construction industry professional with over 35 years of experience in both local and international companies. Martin's particular expertise is in the provision of contractual and commercial services to Quantum clients.

He has been instrumental in the development of contract forms with clients, subcontractors, designers and suppliers, as well as the administration of contracts and the development and resolution of contractual disputes.

Martin's understanding of the construction industry and the various internal disciplines of project management, planning, cost control enables him to develop, integrate, maintain and monitor effective commercial management systems for any organisation and to develop resolutions required for dispute management.

He has been assigned to several major projects having responsibility for:

- Management of Time and Cost analyses for the resolution of various construction related disputes, including researching cause and effect, reviewing programme implications, development of the resulting costs, and preparation of entitlement documentation.
- Advising clients on the validity of claims received from contractors including level of risk, contractual implications, time and cost impact.
- Advising Clients on commercial and contractual issues, including dispute resolution, and undertaking contractual administration and reporting.

Some of the projects where Martin has provided Expert Services are:

- New Doha International Airport, Doha, Qatar.
- Lusail Camp Site, Installation Works - US\$ 10 mn.
- Hamad International Airport, Qatar - Façade Works - US\$ 25 mn.
- Golden Ears Cable Stay Bridge Project, Canada - US\$ 750 mn.
- Msheireb Downtown, Doha value US \$5.5 bn.
- Doha World Trade Centre, Qatar- US\$ 150 mn.
- London Underground Rail, London, UK.
- Light Rail Transit System, Kuala Lumpur, Malaysia.
- Kuala Lumpur International Airport, Malaysia.
- M25 Motorway, London, United Kingdom.
- The Olympic Park, London, United Kingdom.
- Catering Facility at Hamad International Airport, Doha value US\$ 400 mn.
- World Trade Centre Façade Packages, Saudi Arabia value US\$ 15 mn.
- Taiwan High Speed Rail, Taipei, Taiwan.
