

Experience Summary

Experienced Quantity Surveyor and Contract and Claims Manager from a building and civil engineering background. With over three decades of experience, Sean has worked on projects ranging from small local authority refurbishment projects to a multi-million Euro Engineering, Procurement and Construction (EPC) nuclear power station.

His experience in a wide range of areas of construction from nuclear to housing refurbishment shows a flexibility and adaptability to the needs of a large variety of projects. Sean has good working knowledge of FIDIC, PWA and bespoke forms of contract.
